**Teachers In Charge:**

Mr Kwek Eng Yeow  
Mr Caleb Ho

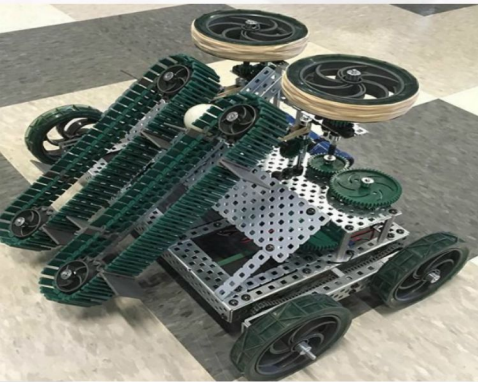

# About VRMC

VRMC has 3 specialisations; VEX, Drones and Programming/Electronics

## VEX

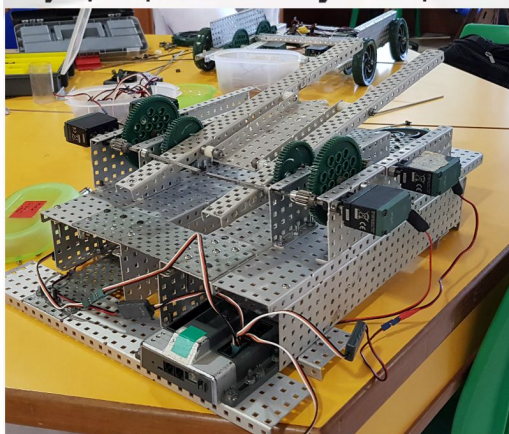

Build robots using VEX parts and program with RobotC

Participate in Singapore VEX robotics championships every June

Easy to pick up, not much background required!

## Drones

Build foam planes from scratch

Learn how to fly a FPV (First person view) quadcopter!

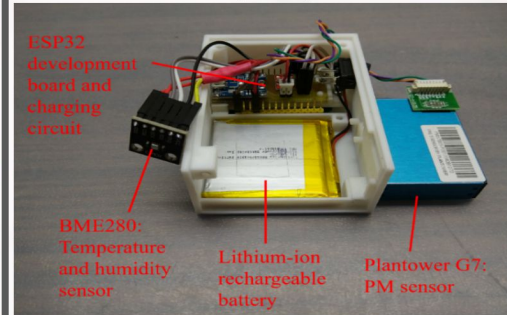

Take part in SAFMC in April!

## Programming/Electronics

Wide range of platforms available, like Arduino and Raspberry Pi

Can do 3D printing for selected projects as well

Learn how to code in Python, HTML and more!

Tea session:

Date: 15 Feb, 4pm-5.30pm

Venue: Syborg Lab, Level 2
